

## BRIEF COMMUNICATION

### TWO REPLACEMENT NAMES IN *CASTIARINA* (BUPRESTIDAE: COLEOPTERA).

The elevation of *Castiarina* to genus<sup>1</sup> and the transfer of *Hypostigmodera variegata* Blackburn (1892)<sup>2</sup> to it, has created the need of a replacement name for one species. *Stigmodera (Castiarina) variegata* Barker (1983)<sup>3</sup> becomes a secondary homonym. I propose that the latter taxon be replaced with *C. interstincta*, derived from *interstinctus* L., "variegated".

In addition *Stigmodera (Castiarina) deliciosa* Barker (1988)<sup>4</sup> is a primary homonym of *Stigmodera deliciosa* Kerremans (1898)<sup>5</sup> and I propose the younger name be replaced with *C. beatrix*, derived from *beatrix* L., "she that makes happy".

<sup>1</sup>Gardner, J. (1990) *Invert. Taxon.* 3, 291–361.

<sup>2</sup>Blackburn, T. (1892) *Trans. R. Soc. S. Aust.* 15, 207–291.

<sup>3</sup>Barker, S. (1983) *Trans. R. Soc. S. Aust.* 107, 139–169.

<sup>4</sup>Barker, S. (1988) *Trans. R. Soc. S. Aust.* 112, 133–142.

<sup>5</sup>Kerremans, C. (1898) *Annls Soc. ent. Belg.* 42, 113–182.
